PLOW IT
YOURSELF

Easy-to-use snowplow for SUVs and light pickups

NOW THERE'S A PLOW FOR WHERE YOU LIVE AND WHAT YOU DRIVE

If you've got a lot of driveway, a lot of snow, and just a little time, you probably wish there was a better way to clear your drive.

Plow It Yourself!

Home Plow™ by Meyer brings you the better way. The Home Plow is an easy-to-use, hardworking plow engineered for SUVs and light pickups.

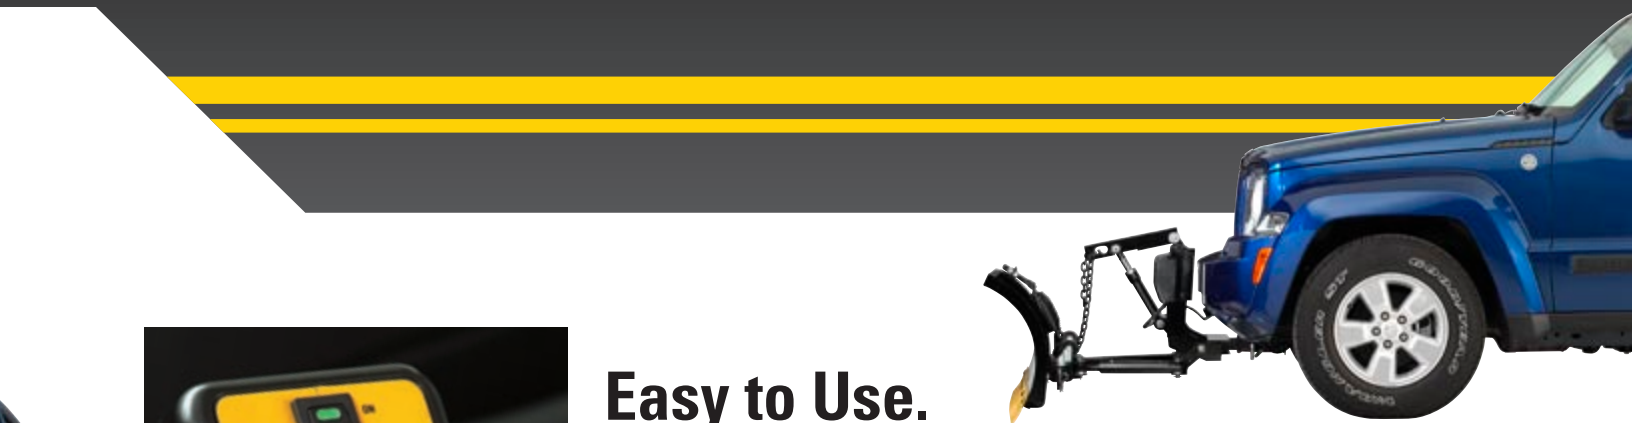

Easy to Mount.

The Home Plow connects with Quick-Link™: An easy-to-use mounting system that slides into a Class 3, 2-inch front receiver hitch. Once the receiver hitch is installed, Quick-Link lets you attach or detach the Home Plow in under a minute with no tools. So you can clear your drive and get on your way, right away. When the plow is detached, there is no visible hardware on your vehicle.

thehomeplow.com

Visit our website to see a video of the Home Plow in action. You'll see just how easy it is to Plow It Yourself with the Home Plow.

Easy to Use.

The Home Plow™ comes standard with a controller that moves the plow up or down with the touch of a button. Its patented* Auto-Angling™ feature moves snow left or right automatically so you don't have to leave the comfort of your vehicle. The Home Plow is the only residential snowplow that doesn't require the driver to get out of the vehicle to change the direction of the blade.

Auto-Angling works by sensing which side of the plow is gathering the most snow, then automatically angles the blade in that direction for maximum plowing efficiency; or, if you prefer, you can lock the plow in the direction you want.

As an option, Home Plow offers a Power-Angling model. With a touch of a button, you choose which way to move the blade, up or down, left or right, from the comfort of your vehicle.

Auto-Angling™ Blade Movement

It even works in reverse!

Easy to Store.

You can detach the Home Plow in less than a minute, and the caster wheels make it easy to roll it to wherever you want to store it when it's not in use.

Home Plow Specs

Width:	6 Feet 8 Inches
Height:	22 Inches
Steel:	14 Gauge
Weight:	241 Pounds

*Patent Pending

The Home Plow™ is engineered to work with today's most popular vehicles.

The Home Plow™ easily fits into a Class-3, 2-inch front receiver hitch. It works with nearly all SUVs and light trucks. It's also compatible with leading utility vehicles, including Kubota, Kawasaki, John Deere, Polaris and more.
